Texaco Station Will Cost \$16,000

Work will start within the next few days on a brand new and modern filling station to be built across the street from Sears Hardware Store in Canal Point at a cost of \$16,000, according to L. L. Shirley, Texaco distributor who will have the station erected. Mr. Shirley hopes to have the station complete and ready for operation by the time the new Canal Point, bridge and road opens about two months from now.

The station is being erected on the southeast corner of the intersection of State Road 15 and the newly located portion of Conners Highway.

In commenting upon the new station Mr. Shirley said it would be one of Texaco's modern and regular type two bay stations. It will be built of concrete blocks and stucco. A large canopy will be one of the features of the new station, he said, making car servicing a pleasure in any type weather.

The station will be located on lot 100 feet by 100 feet. Mr. Shirley pointed out, giving plenty of room for complete and thorough operation of a modern service station. When asked who the operator would be Mr. Shirley remarked: "That question will have to be answered later."

Barfield Highway Will Be Retreaded

County road crews under direction of County Commissioner Paul Rardin have been busy for the past week making necessary repairs on Barfield Highway in Pahokee preparatory to its resurfacing within the next few weeks. All loose wearing surface material has been removed and new hot patch filled in so that the new resurfacing job will have a firm foundation.

Contract for resurfacing the much-used highway has been let by the county commission to Rubin Construction Company of West Palm Beach. The contract price is in the neighborhood of \$10,000.00 for the more than a mile of highway. The material will be mixed at Rubin's plant near Loxahatchee and hauled to Pahokee in large transport trucks.

Hot plant mix will be used to resurface the highway, Rardin pointed out, because this type material works better than anything else where all of the 10 feet of muck has not been removed under the original road bed.

WSGS Groups Will Send Delegates

The Pahokee and Canal Point Methodist Woman's Societies of Christian Service plan to send delegations to the WSGS District Conference in the Park Temple Methodist Church at Fort Lauderdale Thursday, Mar. 4, registration of delegates to take place from 10 to 10:30 a. m. Principal speakers at the conference will be Mrs. A. R. Ivey, WSGS conference president, and Mrs. W. S. Huette, wife of Dr. Huette, medical missionary to the Belgian Congo in Africa.

Belle Glade Bank Has New Building

The Florida National Bank at Belle Glade opened officially for business at its new location at Ave. B and S. W. 1st St. Monday. Open house will be held 2-5 p. m. Sunday, Feb. 28.

The new building is 60 feet wide by 114 feet long, with two floors and a parking lot to the east of the building that will, accommodate approximately 60 cars. The outside of the building is stucco with black granite trim. The entire building is completely air conditioned.

Effort Made To Get Books To Glades

Residents in outlying towns of the county will have a convenient opportunity to register for the coming primary by virtue of county commission action this week. Commissioners Monday ordered the County Superintendent of Registration, DeWitt Upthegrove, to make registration books available to towns not conveniently located near the court house.

Action came after Commissioner Paul Rardin, Canal Point, gave Upthegrove a word of warning. The supervisor of registration had asked that more money be appropriated to take care of the added help he needed during the primary.

Rardin warned him to "get right" with the commission and things would be all right after Upthegrove indicated he could do nothing until he had more money. "This thing of going out to the Everglades and saying the county commission won't cooperate has got to stop right now," Rardin said. Commissioners indicated that there was no reason why Upthegrove could not use the various city (continued on page 8)

Co. Commissioners To Run Co. Wide

Voters in the coming primary will have an opportunity to vote county-wide in the county commission race as the result of a decision handed down this week by the State Supreme Court.

The decision which will change this county's present type of voting by district for the five different commission members was given strong approval by County Commission Chairman Lake Lytal.

"I have always been of the opinion that this is the only equitable way by which county commissioners should be elected," Lytal said. He added that some years ago when the county was re-districted that the question had come up and he had at that time "made it known that all county commissioners should run county-wide in order that the voters in the entire county would have a voice in the selection of all five members of the board."

Lytal, who with Commissioner Ben Sundy, are seeking reelection said "as far as I am personally concerned I am happy to present my candidacy to the voters of the entire county as I feel that my interest as a county commissioner has (continued on page 8)

Rardin Announces Completion Of The New Vinegar Bend-Bolles Canal Road

Built out of the Seventh Cent of the gas tax, the Vinegar Bend-Bolles Canal Road was recently completed at a total cost of \$201,000.00, according to County Commissioner Paul Rardin under whose direction the farm-to-market highway was built. Under state law the Seventh cent is spent at the discretion of the county commission and back more than four years ago Commissioner Rardin set up the recently completed road as his seventh cent project for a four year period—1950, 1951, 1952 and 1953.

Yearly contracts on the road, mileage built and costs are reflected in the chart below:

1950	Sec. A Bolles Canal	1.2 miles	\$24,000.00
1951	Sec. B Bolles Canal	1.2 miles	51,000.00
1952	Sec. C Vinegar Bend	1.5 miles	71,000.00
1953	Sec. D Vinegar Bend	2.2 miles	55,000.00
		Total	\$201,000.00

The recently completed and now opened farm-to-market road forms a loop from Vinegar Bend, running south to Bolles Canal and along the north bank of the canal east to Okedankla where it intersects US 27. It serves thousands and thousands of acres of fertile muck soil, making it quickly accessible to packing house centers at South Bay and Belle Glade.

Commissioner Rardin's 1954 Seventh Cent road program is comprised of two important Glades projects. One is a resurfacing project for 4.2 miles of Bacon Point between the Woman's Club building in Pahokee and the Airport south of the city. The other 1954 project, is a farm-to-market road from Cardwell across two miles of raw muck to the new State Road No. 717. This project is set up in the 1954 SRD budget at \$70,000 and contracts will be sought within the next few weeks.

Two Youths Lost On Lake Okeechobee

An intensive search on Lake Okeechobee was being made this weekend as this paper went to press for two Belle Glade men, Jack Karnes, 24, and his brother-in-law, Charles Buckles, 21, who started out on a fishing trip on the lake Tuesday and have been missing since.

The search for the missing men began Tuesday night after Karnes's wife became alarmed by their failure to return home. One of the local CAP planes Wednesday morning spotted the fishing boat used by the men between Kraemer Island and Bacon Point. The boat was partly sunken with the bow sticking out of the water and the outboard motor still attached. Crash Rescue boats of the USAF stationed at Canal Point joined in the search. The waters of the lake were comparatively calm Tuesday and it is not believed, by Constable Prescott of Belle Glade and other officers participating in the search that the boat was capsized by rough waters.

Medical Clinic Open In Canal Point

A new, ten-room medical clinic has opened in the Barad building at Canal Point Friday. The clinic, at present housing the office of Dr. Salvatore Williams, includes waiting rooms, treatment, X-ray and consultation rooms. There is also a section for use as recovery rooms.

The remodeling of the middle section of the Barad building for use as a clinic was started last fall by Edward L. Weiss, Fort Lauderdale contractor. The exterior of the clinic has been dressed up with a modern slump brick front.

Market Road Job Is Completed

The Brinson Construction Company of Tampa, contractor, has completed the rebuilding of the half mile stretch of the Pahokee State Farmers Market Road from the market south to the Florida East Coast Railway crossing and this important shortcut highway is now completely open to traffic. The contractor started work on this road last summer but moved out most of the road building equipment following last fall's flooding rains.

Beverly Reports Drive Ready Start

Max E. Beverly, general chairman in charge of the annual American Red Cross drive in the Pahokee-Canal Point area, reports everything is in readiness for the start of the drive Monday, Mar. 1.

In addition to the group of workers listed last week, Mr. Beverly announces members of the Beta Omicron Chapter, Beta Sigma-Phi Sorority, will assist in the drive by taking charge of the booths that will be set up at the Bank of Pahokee and the two postoffices. He also announces that Mrs. M. P. Stanley will be in charge of collections in the business sections.

This year's quota for the Pahokee-Canal Point area has been set at \$1,450 and the chairman urges the contributing public to assist the volunteer workers by having donations ready for quick collection when the workers call.

County Campaign For The Red Cross

According to E. H. Cochran, County Fund Campaign Chairman, this is the county's apportionment of the national goal of \$85,000,000 needed to carry on the work of the Red Cross this year.

Of this sum Mr. Cochran says 70 percent will be used locally by the Chapter, the balance going to the National Organization to meet its extensive responsibilities for humanitarian service at home and abroad.

It addition to the funds needed it is the Chapter's aim to enroll 34,000 active members who will help direct the Red Cross work and who will assist as volunteer workers. The theme of the campaign will be "Answer the Call Join and Serve."

Last year your contribution and help made it possible to procure 6502 pints of blood for the Armed Forces, give financial assistance and service to servicemen, veterans and their families costing \$18,326.00, taught 1,088 mothers, girls and housewives "Home Care of the Sick", give over 2,000 persons Free Swimming Instructions, First Aid classes were taught in each high school in the county and to Civil Defense, Police and Fire Department and other groups. 20,711 hours of service were given by members of the Volunteer Service Groups to the ill and hospitalized. Emergency First Aid was made available to more than 75,000 people at Public Events.

Hurricane Relief of \$423,691 was given to disaster victims in Palm Beach County since 1947 by the National Red Cross, during the same period Palm Beach County contributed to the National Organization only \$189,620.

All of this was made possible by voluntary contributions to the Red Cross and the services of about 6,000 Volunteer Workers. The Chapter has only 9 paid staff members.

This year's campaign, in addition to Mr. Cochran will be directed by: W. C. Bamford, Belle Glade, whose quota is \$2500, Fred Jungbluth, Boca Raton \$1800, Arthur Frederick, Boynton Beach \$2000, L. W. Conover, Delray Beach \$3500, Harry C. Moores, Jupiter \$600, Thomas Thornton, Lake Park \$400, Roy Michaels, Lake Worth \$11,000, Max E. Beverly, Pahokee and Canal Point \$1450, E. H. From where I sit... by Joe Marsh

Handy and Easy "Sign Up"

Last month's safety drive was a big success—almost. Every one helped—the schools ran movies on safe driving, Rotary put up posters, and Handy and Easy Peters went out on their own.

The boys put up a big sign by the side of the highway. It said, "Slow down—the life you save may be your own." It was a good idea—after the police moved the sign back twelve feet.

In their enthusiasm Handy and Easy put it too close to the road—in fact, right on the sharpest curve on the highway. They made

driving unsafe by cutting off the view around the curve.

From where I sit, lots of people—even though they mean well—suffer from short-sightedness now and again. For instance, some can never see any further than their own preferences. They even go so far as to object to my choice of a glass of beer with supper. Shouldn't we always take the "long view"... and respect our neighbors' rights?

Clewiston Founder Dies At Miami Beach

Bror Gustav Dahlberg, 73, a Chicago industrialist whose career included development of the sugar industry in Florida and the founding of the City of Clewiston, died Sunday in Miami Beach following a heart attack.

In 1916 he became vice president of the Minnesota and Ontario Paper Co., a position he held until 1921. That year he organized the Celotex Corp. in Chicago, was president for many years and then chairman of the board. The company became one of the nation's largest manufacturers of building supplies.

He also was a founder and chairman of the board of Celotex, Ltd., London, and was organizer, president and chairman of the board of the South Shore Oil and Development Co. and the South Coast Corp.

It was because of his early interest in Florida as a sugar state that the town of Clewiston came into being as one of the very few communities sketched completely

on a plaining board before building started.

The B. G. Dahlberg & Associates acquired most of the area which now includes Clewiston in 1925 and his Southern Sugar Co. began operations. The U. S. Sugar Corporation later took over his operations.

Would Bring Air Academy To County

County Commissioners this week joined with other boosters in this area in an effort to have the proposed United Air Academy located in this county.

At the suggestion of Ed Reddy, member of the County Resources Development Board, the commission went on record to petition A. T. Talbot, secretary of the A. F., urging the establishment of the academy in this county or if not

possible at least in the state.

Reddy said the primary purpose of the academy will be academic rather than a flight training school. It will be patterned along the lines of the Naval and Military academies.

A bill has already been introduced in Washington to spend millions on establishing an academy but as yet no definite location, has been determined, said Reddy.

YOU just saved a life!

How? Because your generosity in joining the Red Cross helped make it possible to train nearly one and a half million people in water safety and first aid this year.

Thanks to you, some one could act—fast—when the little boy swam out too far. Thanks to you, a mother and father tonight are watching over a youngster who needs only food and warmth and sleep to bounce back to high spirits.

You are there with the Red Cross wherever people need help. In tornados. Floods. Fires. Epidemics. When blood saves a life. When a serviceman needs a hand.

Your neighbor will ask you to join again soon. Remember, there could be no Red Cross, no help for folks who need it, without you. Join generously!

Christian Science Group Of Canal Point

That the remedy for hatred, selfishness, and greed is found in the love of God, as taught by Christ Jesus, will be emphasized at Christian Science services Sunday.

In the Lesson-Sermon entitled "Christ Jesus' passages read from "Science and Health with Key to the Scriptures" by Mary Baker Eddy, will include:

"If we wish to follow Christ, Truth, it must be in the way of God's appointing. . . . All nature teaches God's love to man, but man cannot love God supremely and set his whole affections on spiritual things, while loving the material or trusting in it more than in the spiritual.

"We must forsake the foundation of material systems, however time-honored, if we would gain the Christ as our only Saviour" (326:3-4,8-14).

This passage from the Bible will also be among those read:

"How beautiful upon the mountains are the feet of him that bringeth good tidings, that publisheth peace; that bringeth good tidings of good, that publisheth salvation; that saith unto Zion, Thy reigneth" (Isaiah 52:7).

City Council Has Routine Meeting

The Pahokee City Council turned thumbs down on fluoridation of the city's water at the regular meeting Monday night when it went on official record as opposing any proposals of fluoridation.

Councilman Robert B. Simonson, City Attorney Ralph Johnson and Waterworks Superintendent Robert J. Schroder were named on a committee to study a request to extend a city water main to the Streamline settlement, a Negro residential section located on the Muck City Road a short distance southeast of the city limits.

Councilman J. H. Wilkinson, Jr., streets commissioner, was authorized to purchase two carloads of rock for finishing streets in the Negro residential section that have been graded and are now ready for rock and oil. City Clerk Dorothy Graham was instructed to write a letter to the Palm Beach County

Board of Public Instruction thanking the board for dedicating 25 feet of land as a right of way on S. E. Fourth Street, which, with the 25 feet previously dedicated by Mrs. J. E. Roberts now has a 50-foot right of way.

As a safety measure to local school children the Council voted to have temporary barriers placed at both ends of the alley which borders the school grounds on the west and completely close this alley to motor vehicle traffic. Councilmen Robert Simonson, Louis Mims and J. H. Wilkinson, Jr., were named on a committee to work with Police Chief Leon Guthrie in a study of ways to provide additional safety measures for the school children. The danger of unregulated horseback riding by children within the city limits was also discussed at the meeting and Councilman Dick Parrish recommended the west side of the city park be opened for horseback riding.

The Council voted the use of funds for painting the municipal swimming pool inside and out at a cost estimated between two and three hundred dollars. Frank Thompson, building inspector, was authorized to have any repairs made on the pool necessary to get it in good condition before opening for the spring and summer season.

The Council voted a \$50 contribution to the Animal Rescue League of West Palm Beach for 1953-54, and expressed its appreciation.

Howard's Netters Lose Two In A Row

Coach Bill Howard's Pahokee Blue Basketball team lost successive games to Stuart and Belle Glades Friday and Saturday nights and wound up a rather disappointing session in eighth place in the Suncoast Conference race with a conference record of four games won and 11 lost. Only the Belle Glades Rams with a conference record of 2-13 were behind the Blue Devils in the Suncoast competition.

Pompano took this year's Suncoast basketball title with a 14-1 record and Vero Beach was close behind with a 13-2 record for the season.

The Blue Devils are scheduled to compete in the basketball tournament at Pompano this week.

certainly been county-wide in all decisions."

As far as the present commission is concerned, Lytal said, "the new ruling is quite acceptable to them as we have always attempted at all times to represent the entire county, even though we are elected by certain districts. The present board has always concerned itself with the problems confronting the commissioners from each of the district and has attempted to manage the affairs of the county in such a way as to be of benefit to the entire county rather than to a particular district."

"I think it is proper," Lytal added "That a man in order to run for county commissioner must qualify in a certain area in order that all areas may be represented on the Board, but that each and every commissioner should submit his candidacy to all the people of the county."
